

Important Message about the Nova CoronaVirus

(taken from today's newspaper article Desert Sun)

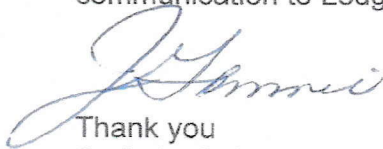

As COVID-19 continues to be a health concern around the world, we are actively staying apprised of the updates, status, and recommendations through numerous media and monitoring systems. That is why we have decided to cancel our face to face Spring meeting.

With lodges all across the 5 Provinces, we all need to be diligent in practicing good hygiene and using proper social distancing methods, which was on the National news last night and we thought was good advice.

Remember to wash your hands frequently, and/or use hand sanitizer when possible.

Looking forward, we are recommending that if you are not feeling well, please refrain from attending any lodge meetings or community events. Be there a need to cancel meetings and fundraisers for the time being, but we will leave that decision to your local lodges.

Your National Board of Directors will continue to monitor the regular health messages being circulated from the Canadian Government and the World Health Organization, As we move closer to provincial conferences and AGM, we will remain diligent in our communication to Lodges.

Thank you
On behalf of the National Board of Directors

Jan Gammie
President
